

What sort of questions will the operator ask me?

The operator may ask you:

- some basic questions to confirm your identity (name, first name, date of birth etc.).
- to make some simple moves in front of the camera (to prove you are not a robot).
- to show your valid ID document.
- to communicate him the verification code you received by SMS (on your mobile phone) during the VideoID session.
- to take a photo of you.
