

What is a Registration Authority?

It is mandatory for any person who wishes to hold a LuxTrust device to be clearly identified during a face-to-face identification procedure by a registration officer appointed by LuxTrust S.A.

To do so, LuxTrust has developed a network of registration authorities where you can identify yourself and validation your order.

Click [here](#) to find a list of all LuxTrust registration authorities.

If you are already identified within an registration authority (e.g. bank) you can send your order form directly to your bank without having been identified face-to-face.
